Dijon area

Exceptionnall quality of life

Dijon has something for everyone !

For heritage lovers, the city boasts a historic center, teaming with remarkable buildings. Culture and music buffs will enjoy the opera house, a national theater, a Zenith arena, concert venues such as La Vapeur, as well as an array of fine museums. Food enthusiasts are spoiled for choice with 5 Michelin-starred restaurants, 13 in the Côte-d'Or area, as well as one in the International City of Gastronomy and Wine. For sports lovers, there are 400 kms of bike paths that take you to work or into the countryside in under 15 minutes, through the vineyards or along the Burgundy canal.

For families, Dijon offers a peaceful, convenient lifestyle with excellent public transportation and comprehensive healthcare facilities.

© Noémie Lacarelle

- » Ranked third among mid-sized metropolitan areas for quality of life by the 2025 Arthur Lloyd barometer
- » 5 municipal museums, attracting 500,000 visitors annually
- » 1 opera house and a national theater
- » 1 Zenith arena with a 9,000-seat capacity, the 5th largest in France
- » One of France's largest conservation areas: 97 hectares and 3,000 historic buildings
- » 5 Michelin-starred restaurants in Dijon (13 in Côte-d'Or), and over 500 restaurants
- » Gateway to the Burgundy Grands Crus wine route

A rich talent pool

Dijon's employment area is the largest in the Bourgogne-Franche-Comté region with a population of 383,000.*

The metropolitan area accounts for approximately 100,000 private-sector jobs

The young and highly skilled workforce counts a high proportion of managers making Dijon an ideal location to launch high value-added projects.

- » 40,000+ students – the region's top university hub
- » 32 % of the population is under 25
- » The University of Burgundy Europe ranks among the top 5% of higher education institutions worldwide.
- » Nearly 1500 teaching and research staff
- » 30 research units, including 13 Joint Research Units accredited by the French Alternative Energies and Atomic Energy Commission (CEA), National Center for Scientific Research (CNRS), National Research Institute for Agriculture, Food and Environment (INRAE), and National Institute for Health and Medical Research (INSERM)
- » Renowned training: Dijon Agro Institute, Burgundy School of Business (BSB), SciencesPo Paris (Dijon campus)
- » Leading engineering schools: CESI, ESEO, ESTP, POLYTECH Dijon
- » Private higher education is expanding, driven by the growth of several major groups: Galileo Global Education, Supexam, Coda, Holberton School, etc
- » Excellence in hospitality and culinary arts with world-renowned schools : FERRANDI, VATEL, MBA Wine & Spirits from BSB

A european leader in low-carbon cities

Dijon is a land of innovation.

Dijon is at the forefront of innovation, continuously driving pioneering public and private initiatives. As the first city in the world to construct a positive-energy office tower in 2005, and Europe's first Smart City with «On Dijon» in 2019, Dijon is a trailblazer in Europe for environmental transformation.

- » A European pilot city under the Response program, creating entire positive-energy neighborhoods
- » Dijon is one of 9 French cities awarded the "100 climate-neutral and smart cities by 2030" label by the European Commission from 23 candidates
- » World's first positive energy office tower (ELITHIS Tower, 2005)
- » 4th largest district heating network in France (130 km), primarily powered by renewable energies
- » The Dijon-Valmy solar power plant on the former landfill site was one of the largest farms in France (15.5 MWh) when it was built in 2021
- » In 2025, Dijon Métropole installed photovoltaic canopies over the 23,000 sq m parking area of the Zénith. The 2,194 solar panels will generate 1.1 GWh annually, covering 10% of the tramway's current energy needs.
- » Furthermore, the metropolitan authority has established a semi-public company dedicated to managing a portfolio of energy production and energy transition projects at the territorial level.
- » From June 23 to 25, 2026 the city will host the European Energy Conference

A city that welcomes **excellence and competition in innovation**

Dijon offers the ideal environment for business growth, featuring a large exhibition and convention center in the heart of the city and a robust network of industry clusters and centers of excellence. Key sectors include VITAGORA (food industry), ROBOTICS VALLEY, AGRONOV (agro-ecology), and SANTENOV DIJON BOURGOGNE (healthcare).

Businesses benefit from strong networks and technical support, accelerating growth and longterm success.

© Noémie Lacarelle

- » A catchment area of 416,713 inhabitants (INSEE 2022)
- » Capital of the Bourgogne-Franche-Comté administration region
- » One of France's 22 metropolitan areas, with 262,000 inhabitants
- » A diverse business ecosystem, with competitive and excellence clusters spanning agri-food, pharmaco-imaging, robotics and more
- » Dijon Bourgogne Events Exhibition & Convention Center, just 15 minutes from the train station, with direct tram access

© Jonas Jacquiel

The culinary and food transition capital

Dijon is the capital of taste and the art of fine living.

Bars and outdoor dining, hospitality and parks, not to mention cultural and leisure activities with museums, opera and theater. Dijon is a great place to live! The International City of Gastronomy and Wine, inaugurated in 2022 near Dijon Station and the start of the Burgundy Grands Crus Route, epitomizes the region's, and France's, gastronomic DNA. Dijon Bourgogne is also home to a host of niche speciality producers, offering a unique and inviting culinary experience. As the world headquarters of the International Organization of Vine and Wine, Dijon further cements its status as a global hub for gastronomy and wine culture

© Emma Benyamine

- » World headquarters of the International Organization of Vine and Wine
- » The International City of Gastronomy and Wine – unique in France, 1 million visitors per year
- » 9,000 jobs in the agri-food sector, accounting for 30% of local industrial employment
- » 45% of the territory is farmland, located in France's 3rd largest agricultural region
- » 13 AOC (controlled designation of origin) and PGI (protected geographical indication) products
- » Several companies hold the Living Heritage Company label, including Gabriel Boudier (Dijon blackcurrant liqueur), Lejay Lagoute (Dijon blackcurrant liqueur), Mulot & Petitjean (gingerbread), Edmond Fallot (mustard) and Anis de Flavigny (candy)
- » VITAGORA, a national competitiveness cluster in Dijon
- » Food transition capital with the ProDij program

© Dijon métropole

A national healthcare hub

Dijon has a long history in the healthcare industry and has emerged as one of France's top healthcare hubs.

In 2024, a local start-up, Inventiva, secured 348 million euros, one of the largest amounts ever raised by a biotech company specializing in drug development in France. This feat reflects the strength of Dijon's healthcare ecosystem, which includes innovative companies such as ADHEX, URGO, PROTEOR, and publicly listed companies CROSSJECT and ONCODESIGN. PRECISION MEDICINE, a university hospital, a strong academic community, the Georges François Leclerc Center and world-class research centers. Dijon is a remarkable breeding ground for personalized medicine, recovery, digital health and biotherapies.

- » 3 Dijon-based healthcare companies listed on Euronext, including one on NASDAQ (INVENTIVA, CROSSJECT, ONCODESIGN)
- » More than a hundred companies including DELPHARM, CORDENPHARMA, ASTREA PHARMA, SPPH as well as international leader URGO
- » 4,000 jobs in the region
- » Pharm'Image: a regional center of excellence in pharmaco-imaging created in 2008, the only one of its kind in France
- » France Genesis program : supported by URGO, this program aims to develop artificial skin by 2030, with an investment of 300 million euros in research and development

© Margot Dupuis

A connected city

In 2019, Dijon launched a bold project to create a smart, connected metropolis, making it the first city in the world to undertake such a major innovation.

What does On Dijon mean? A single control center shared with the 23 Greater Dijon town councils so urban equipment, such as traffic lights, public lighting, cameras, etc., can be improved and pooled to facilitate urban management.

© Emma Benyamine

- » On Dijon – Europe's unique Smart City project with hypervisor regulating mobility, lighting, incident management, etc. in real time
- » 100% of the Greater Dijon area covered by fiber-optic Internet
- » 100 companies in the digital sector, including major IT service providers (CPAGE, ALTECA, YMAG, ATOL CD/AMEXIO and more)

© Weckerle - OnDijon

The soft mobility city

Dijon is a compact city with an efficient tram system and a strong commitment to soft mobility. It is increasingly bike-friendly with 400 km of cycling paths.

- » 100 hectares of pedestrian-only zones in the city center, with a 60% increase in foot traffic between 2011 and 2019
- » A great place to bike with 27% of the road network dedicated to cycling, totally 400 km of bike lanes
- » 12% of all journeys in the Greater Dijon area by bicycle by 2027
- » Efficient tram and bus network, accessible by direct contactless credit card payment
- » Dijon is one of France's least congested cities (42 hours lost in traffic jams per year compared with 120 in Paris, 89 in Lyon and 55 in Nancy)*
- » A third tramway line, approximately 11 km long, is scheduled to come into service in 2030, connecting the north-east of the metropolitan area (Capnord business park and its 12,000 jobs) to the southern gateway at the Portes du Sud business park (9,400 jobs)

*Source : Tom Tom Traffic Index 2023

A dynamic and versatile **commercial real estate market**

Land and property are crucial to any business set up. Dijon offers an adaptable market to meet this need, with nearly 80 hectares of land available for short- and medium-term development.

© Noémie Lacarelle

- » 24 business parks, to suit all sizes and business profiles
- » 90 hectares of available land on two zones dedicated to production :
 - 10 hectares immediately available in the south (Beauregard Business Park)
 - 80 hectares marketable starting in 2026/2027 (Dijon Bourgogne Ecoparc)
- » 40 000 m² of business villages under development for companies setting up or relocating
- » The Parc de la Chocolaterie with 52,000 m² of premises on an iconic, re-purposed former chocolate production industrial site, available for sale or rent
 - Digital: Technov, 6,000 m² of development space for digital technology (Summer 2027)
 - Healthcare: Sully Santenov, 9,000 m² of development space for healthcare companies (2026)
 - Agri and agro-ecology: the Agronov site, a technology park driving agricultural transition

© Ville Dijon

Major real estate projects – Icons of Greater Dijon's growth

Parc tertiaire Dijon Valmy © Ville de Dijon

Dijon Valmy Ecopole

KEY FIGURES :

Total area : **60 hectares** for Phases I, II and III

130 000 m² of floor space to be developed in Phase III already well underway

5 hectares of available land for Phases II and III

4 500 private-sector jobs already on-site

Recent tenants : C-PAGE, HÔTEL B&B, GALILEO GLOBAL EDUCATION, ECOLE DE COMMERCE ET DE MANAGEMENT, HELLER MACHINES OUTILS FRANCE, ORANO, EQUANS...

A business park for high-quality environmental projects

Located to the north of Dijon, the Valmy Ecopole is a business park designed to foster high-level tertiary employment. Built with a strong commitment to sustainability, it embodies Dijon's vision for responsible economic growth while offering a rewarding work environment with top-tier amenities.

The park features fantastic buildings, such as the newly inaugurated C-PAGE and the CAISSE D'EPARGNE-BOURGOGNE FRANCHE-COMTÉ, one of France's largest timber structures, which exemplify the park's building quality. Another undeniable advantage is the tram service, less than 25 minutes from downtown and the train station, along with robust hotel and flex-office options.

Écoparc Dijon Bourgogne

KEY FIGURES :

Total area : **185 hectares**

3.9 hectares are currently available, including 1.5 hectares under option with prospective buyers and 1.4 hectares open to discussion. The new extension will deliver 60 hectares of land available for development in 2026/2027.

Industrial production and advanced tertiary activities

Recent tenants : EURO-INFORMATION, PACIFICA, EUROGERM, FILAB

Acces : expressway to Dijon and direct highway connections, 20 minutes from the train station, Flexo bus service, bike path from the city center

Ideal for large-scale industrial projects

Strategically located at the eastern entrance to the Greater Dijon area, in the towns of Saint-Apollinaire and Quetigny, the ecoparc is designed for sustainable and exemplary production and service activities. The park aims to become a pilot project in terms of quality use and environmental ambition.

It is the city's main public economic development project, with phase II due to be operational in 2027, adding a further 60 hectares to the region's real estate supply. It's essential to look into this site for your business development or relocation projects..

Beauregard Business Park

KEY FIGURES :

Total area : **80 hectares**

60 hectares commercialisables, of land available for development, including 25 hectares currently available, of which 13 hectares are under option with prospective buyers and 11 hectares open to discussion.

Activity focus: industrial, manufacturing and related services

Recent tenants : SAVOYE, GIPHAR, URGO, EIFFAGE ENERGIE SYSTEMES

Acces : raccordement direct à la rocade et aux autoroutes A39, A31 vers A6, A38 vers A6

For production and industrial logistics projects

Located to the south of the Greater Dijon area, as an extension of the Oscara business parks at Longvic and Ouges, Beauregard is tailored for industrial and production-based activities. It offers flexible plot sizes, catering to both SMEs and large companies. The site still has 20 hectares of land available, including a single 10-hectare plot.

This program combines high-quality urban and landscape design to support its sustainable development goals with the local economy's logistics and warehousing needs.

© Dijon métropole

AgrOnov

KEY FIGURES :

Total area : **20 ha**

Target : agronomic and agri-food innovation companies and start-ups

Latest companies : ARDPI BIOTECH, SON, CELLAVEN

Acces : 20 min du centre-ville, parkings relais

Excellence hub for agro-ecology

Located to the south-east of the Greater Dijon area, AgrOnov is a technical hub that fosters innovation in agro-ecology, driving the agricultural transition towards sustainability. AgrOnov, is a place where skills converge, where businesses can develop the networks they need for successful innovation projects.

The AgrOnov 3 extension is underway and will soon provide additional space for R&D activities. The remaining plots, which are under 10,000 m2, are available for purchase.

Parc de la Chocolaterie

For major urban logistics and production projects

On the site of the former Chocolaterie de Bourgogne factory, less than 3 km from downtown Dijon, a huge complex with over 52,000 m² of net square surface is being built. Primarily dedicated to production and urban logistics, the park will also house a leisure center, a 5,000 m² tertiary center with a hotel and dining services, and almost 10,000m² of space dedicated to small businesses.

This unique project developed by AXIM offers a host of opportunities for investors and operating companies alike. Its visibility from the Dijon beltway and 400 m facade is quite simply exceptional.

Sully Santenov

R&D showcase for Dijon's bio clusters

Designed by Greater Dijon and the Technopole Santenov Dijon Bourgogne, the Sully Santenov is the new flagship building for health in Dijon. In 2027, it will be home to new training, research, innovation and entrepreneurial activities in the fields of health and digital technology. This unique 9,300m² facility is in the immediate vicinity of research laboratories, engineering schools, the university hospital and technology companies established on the Mazen-Sully business park. As part of the region's leading healthcare industry hub, it will unite students and company trainees, as well as entrepreneurs, manufacturers and researchers.

This collective dynamic will promote cross-sector collaboration and the development of scientific and entrepreneurial projects, reinforcing Dijon's position as one of France's leading capitals for innovation and health research.

Symbiose « Les Longènes »

A tertiary cluster in Dijon's healthcare valley

This 5-hectare development project led by Eiffage Immobilier includes authorization for 39,000m², of which 30,000 m² will be dedicated to healthcare.

Ideally located on the edge of the beltway and close to Dijon's university hospital campus, the program has ample capacity for tertiary sector development. It integrates seamlessly into the healthcare ecosystem: the university hospital, the Georges François Leclerc Center, the Pharm'Image center of excellence, and the university with its Health Sciences training and research center (8,000 students)

Construction of the 5,800 sq m dialysis center is currently underway. Work is also progressing on a 170-room student residence. The overall program includes the long-term development of 27,800 sq m of office space, with an initial 4,500 sq m scheme, "OTIUM," currently in pre-leasing.

Technov

The city's future flagship for tech and digital innovation

Technov is a development project led by D3B, Dijon's public-private partnership (SEM patrimoniale). By 2027, Technov will be a 6,000m² facility for Dijon's digital and tech sectors, located at the foot of the tramway and at the heart of Dijon's university campus.

Beyond traditional rental spaces, Technov will offer shared spaces, meeting rooms, coworking facilities for those working in the tech sector.

GA Smart Building was awarded the tender in December 2025 and will deliver this off-site constructed building in September 2027.

Former **TETRA PAK** site in Longvic

This former industrial and logistics site once employed up to 360 people, notably for the production of the famous food cartons.

A preferred bidder is expected to be selected by the end of 2026, with the aim of giving this exceptional site a second life, distinguished by:

- 115,000 sq m of land area
- 40,000 sq m of business space: production, offices and logistics

A new chapter is set to begin for one or several companies that will establish operations on this XXL site, located in the heart of the Longvic industrial zone and directly connected to Dijon's ring road via the Beauregard interchange.

Data on the Dijon real estate market

The Greater Dijon area boasts a particularly active and attractive market. Reflecting this vibrant energy, Dijon once again ranked highly in the Attractiveness & Resilience of Metropolises barometer, published by Arthur Lloyd. Dijon came in 1st overall among cities with populations between 300,000 to 500,000 and topped the category «Welcoming businesses and professional real estate». The title of our brochure is more relevant than ever: «Dijon, The Place to Invest»!

All the data below is sourced from the Côte-d'Or Commercial Property Observatory. This tool is managed by the Bourgogne International Chamber of Commerce, with its commercial property consultancy partners: Arthur Loyd, BNP Paribas Real Estate, CBRE Impact, Cushman & Wakefield, NCBC, Voisin Immobilier and MAX-IM.
